TITLE:

FREE ANALYTE DETECTION SYSTEM

Mail Stop Petition Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

PETITION UNDER 37 C.F.R. § 1.182

Applicants hereby petition the Director of the United States Patent and Trademark Office ("USPTO") under 37 C.F.R. § 1.182 to consider the Office action dated December 15, 2004, as a non-final Office action, to enter and consider the Amendment and Response filed on April 15, 2005, as a timely-filed response after non-final rejection in the above-identified patent application, and to withdraw the untimely issued Advisory Action of July 13, 2005.

The Director is authorized to charge the petition fee as set forth in 37 C.F.R. § 1.17(f) to Deposit Account No. 50-1721. Applicants believe that no additional fee is required for consideration of this petition. However, if Applicants' belief is incorrect, the Director also is authorized to charge any additional fee to Deposit Account No. 50-1721.

The Office action dated December 15, 2004, was marked as a non-final Office action on its cover sheet. However, the last page of the Office action indicated that the Office action was final. The Image File Wrapper of the USPTO's publicly-available on-line database, Patent Application Information Retrieval (PAIR), indicated on April 15, 2005, that the Office action dated December 15, 2004, was a non-final rejection. However, the Transaction History of PAIR indicated that a final rejection was mailed on December 15, 2005.

Applicants timely filed an Amendment and Response on April 15, 2005, together with a petition and fee for a one-month extension of time for response up to and including April 15, 2005. As a precautionary measure, the Amendment and Response was sent to Mail Stop AF on April 15, 2005, for expedited processing.

According to publicly available records in PAIR on July 1, 2005, the Amendment and Response filed on April 15, 2005, was scanned into the file and shown in the Image File Wrapper as an Amendment After Non-Final Rejection. On July 1, 2005, the Transaction History did not show the filing of the Amendment and Response of April 15, 2005. Copies of the content of the Image File Wrapper and the Transaction History printed from PAIR on July 1, 2005, are attached herewith as Exhibit A.

Examiner Deborah Davis acknowledged during a telephonic interview with the undersigned on July 1, 2005, that she was not aware that a response to the Office action of December 15, 2004, was filed. Supervisory Examiner Long Le acknowledged during a telephonic interview on July 1, 2005, that his review of the USPTO database did not indicate that the Amendment and Response filed on April 15, 2005, had been entered and considered. A copy of Examiner Long Le's summary of the interview is attached herewith as Exhibit B.

Following the telephonic interview, the Amendment and Response filed on April 15, 2005, was forwarded by the USPTO to the Examiner on July 1, 2005, as indicated on July 19, 2005, in the Transaction History of PAIR, a copy of which is enclosed as Exhibit C. After Examiner Davis and Examiner Le were notified by the undersigned that an Amendment and Response was filed on April 15, 2005, an Advisory Action was mailed from the USPTO on July 13, 2005, more than six months after the mailing date of the December 15, 2004, Office action and almost three months after the Amendment and Response to the December 15, 2004, Office action was filed by Applicants.

The Manual of Patent Examining Procedure (MPEP) states that "[r]eplies after final should be processed and considered promptly by all Office personnel." MPEP § 706.07(f)(K). The facts here indicate that the USPTO did not process and consider promptly the Amendment and Response filed on April 15, 2005. Instead, as indicated in PAIR on July 1, 2005, the Amendment and Response was processed as a reply after non-final rejection. After the inquiry by the undersigned, an Advisory Action was mailed on July 13, 2005.

Petition under 37 C.F.R. § 1.182 U.S. Serial No. 10/022,481 Page 3 of 3

ŷ

Furthermore, Applicants submit that regardless of the status of the Office action of

December 15, 2004, by filing the Amendment and Response on April 15, 2005, with proper

extension fees, Applicants have prosecuted the application within the statutory required time

period set forth in 35 U.S.C. § 133. Applicants have paid-in-full the filing fee for a utility

application under 37 C.F.R. § 1.51 and § 1.16 and are entitled to timely examination and

consideration of their application. The failure of the USPTO to process and consider promptly

Applicants' response timely filed on April 15, 2005, is through no fault of the Applicants. The

USPTO's confusing identification of the status of the December 15, 2004, Office action and

delayed examination and issuance of an Advisory Action in this patent application diminishes

the value of Applicants' filing fee if Applicants are required to file a petition to revive this

application for alleged failure to take action under 37 C.F.R. § 1.113(c) or § 1.114.

Accordingly, Applicants respectfully request that the Director of the USPTO grant the

Petition under 37 C.F.R. § 1.182 to make the Office action of December 15, 2005, non-final as

indicated on its cover sheet, consider and enter the Amendment and Response filed on April 15,

2005, as a timely-filed response after non-final rejection as indicated in PAIR, and withdraw the

Advisory Action mailed on July 13, 2005.

If there are any questions with respect to this Petition, the USPTO is welcomed to contact

the undersigned agent.

Date: July 19, 2005

Summar / of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713 (4. Substance of Interview Must be Made of Record A complete written statement as to the substance of any face-to- 'uc s, videc conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was esched at the interview.

Title 37 Co le of Federal Regulations (CFR) § 1.133 interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 (IFIt §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be tran acted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relatio 1 to which there is disagreement or doubt.

The action of the Patent and Trademark Offic: cannot be based exclusively on the written record in the Office if that record is itself incomplete through the fallure to record the substance of interviews.

It is the responsibility of the applicant or the a to ney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the ex: m ner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Sumn ary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling to the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwice provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office a strains or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal Int an lew, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the Interview. In the case of a telephone or video-conference Interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If at ditional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed pron pl y after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-cont arcince, or personal)
- Name of participant(s) (applicant, attornity or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art (is:ussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examine to the contrary.
- The signature of the examiner who concucted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remin I the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summar Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the Interview.

A complete and proper recordation of the st tistance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposec amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,

(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the a griments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)

- 6) a general indication of any other pertiner treatters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reason; of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is co riplete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation Sheet (PTO-413)

BEST AVAILABLE COPY

Application No. 10/022,481

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The attorney called to clarify the status of the case because the record is unclear. The office action dated 12.15/04 was made final, but the cover sheet was marked as non-final. An amendment has been submitted on 04/15/05 as a response after final. The response has been scanned in the IFW, however, Palm transaction has not been processed. Suggested Applicant that she should not wait for an advisory action and that an RCE should be filed. The aminer indicated that the RCE will be entered since the office has not entered/responded to Applicant's after final response within proper time period.
